

# FULLSTACK

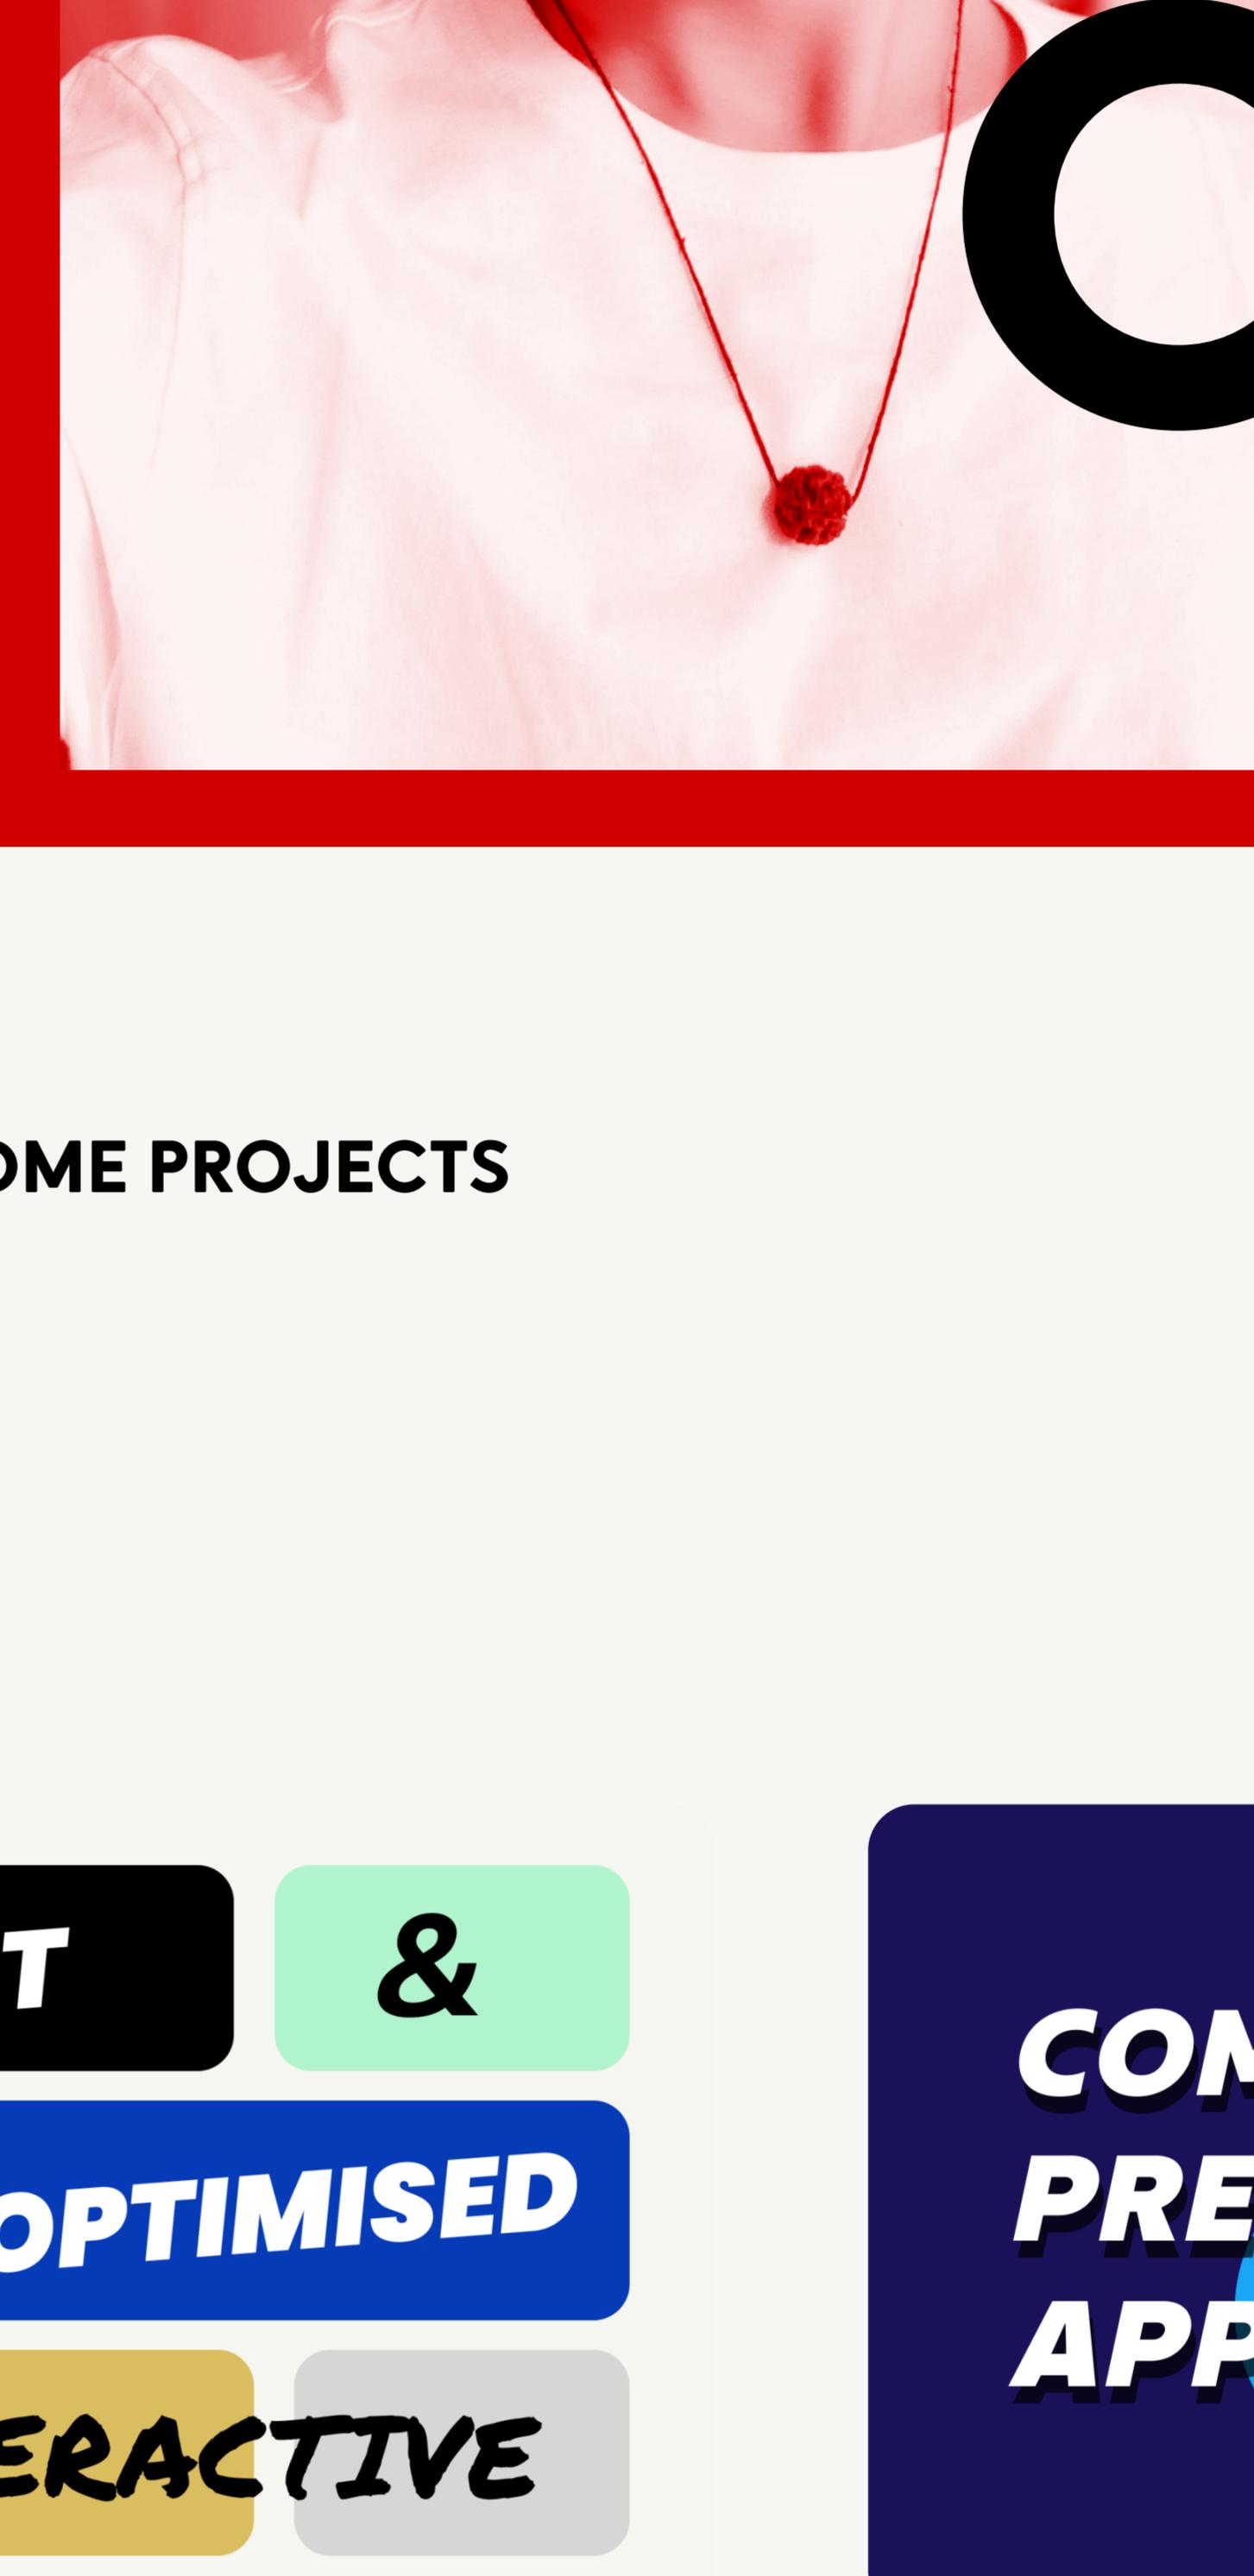

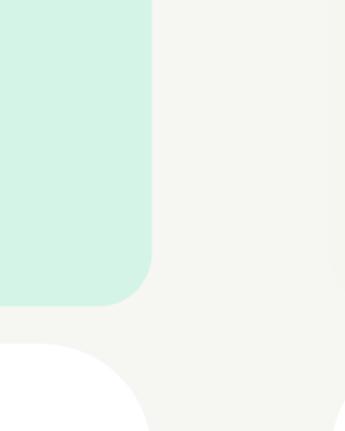

## ABOUT ME

**HELLO AND WELCOME!  
MY NAME IS 'OM PRAKASH PAWAR'**

I'm a passionate web developer and designer based in [Your Location]. While my formal education journey recently concluded with the completion of my 12th class final exams, my journey into the world of web development began long before that. Motivated by a deep curiosity and a desire to learn, I embarked on a self-taught journey into full-stack MERN development and designing, honing my skills through dedicated self-study and hands-on practice.
