# Omprakash Pawar

# Web developer

I am 'Omprakash Pawar'. I'm a passionate developer and designer based in While my formal education journey recently with the completion of my 12th class final exams, my journey the world of web development started just after the exams of my class 10th, I learnt complete Front-End till December created awesome projects, then complete Back-End till May in 11th with a data-Base intensive website of "RK coaching classes"

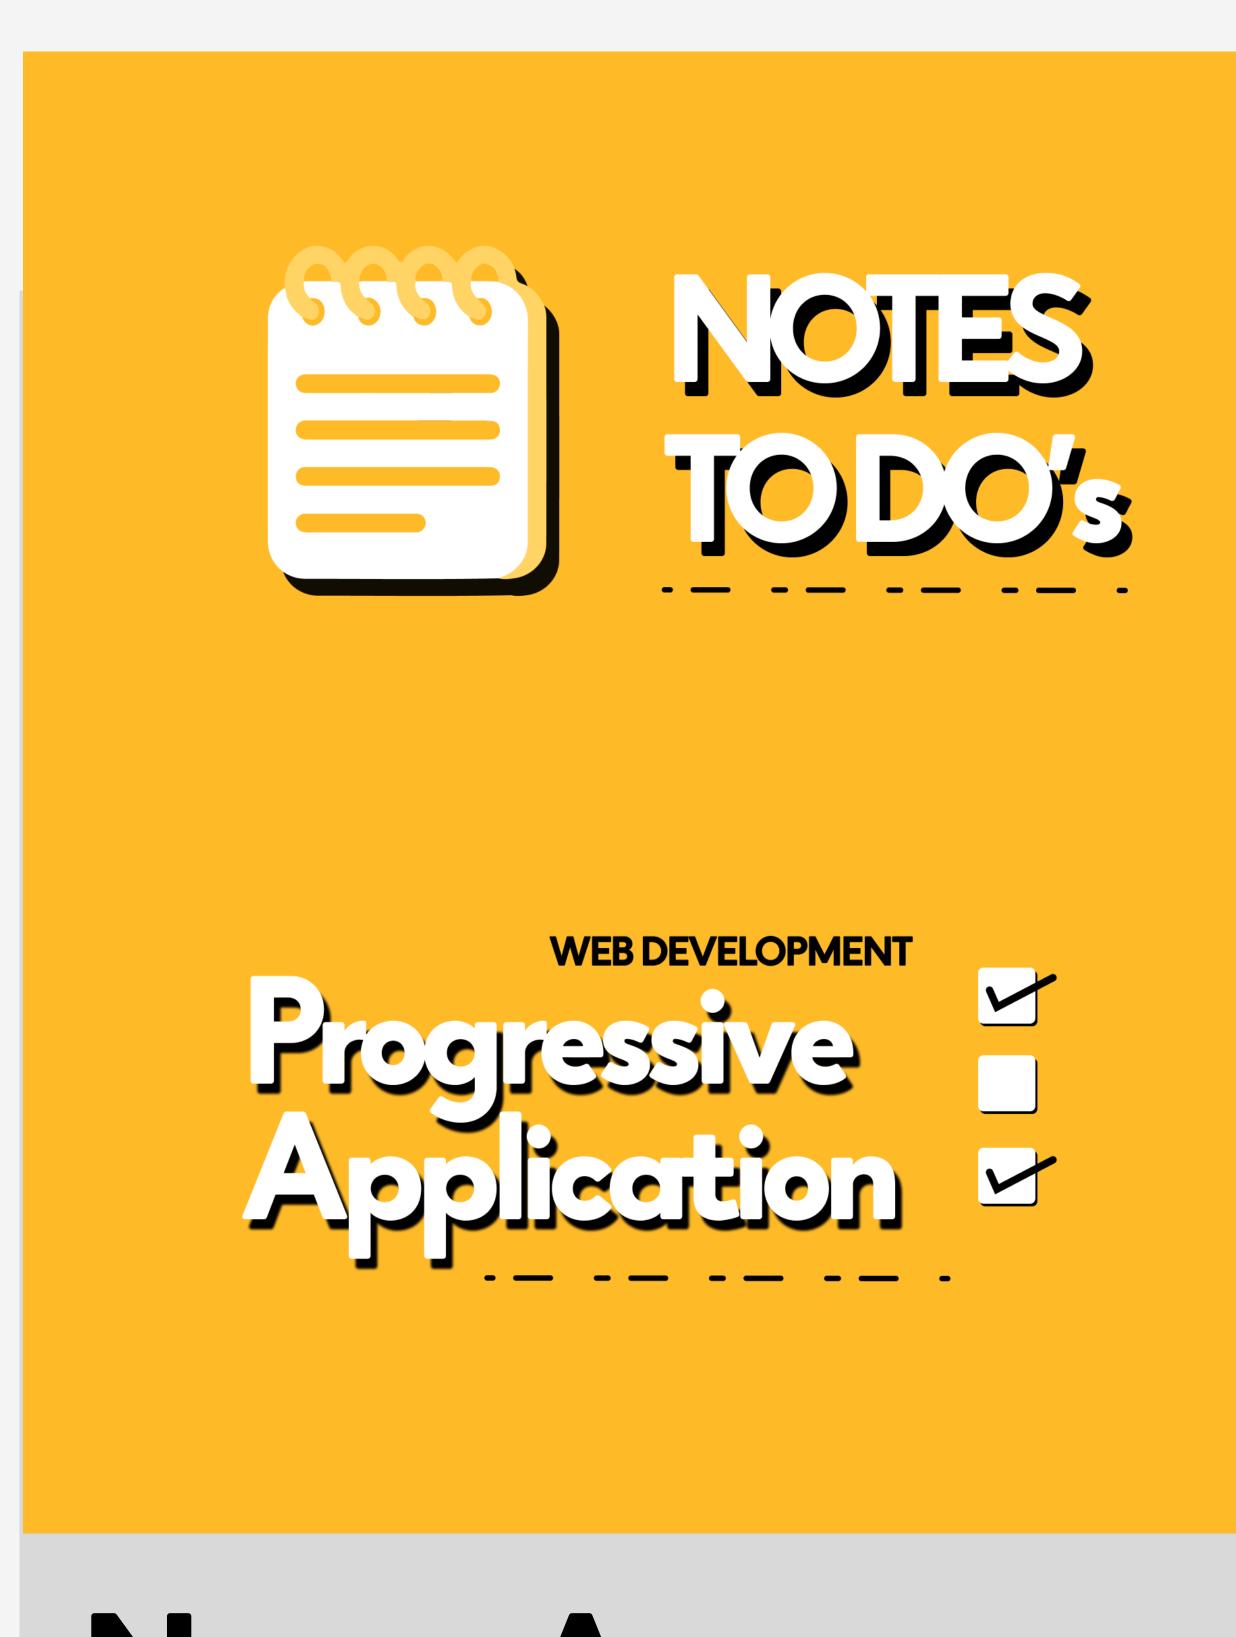

### PROJECTS

This All I created while my frontend and backend learning phase after class 10th with my academic studies, In above projects every line of code and logic is written by me. I had not mentioned any projects which created with the help of YouTube or any prebuild plugins,

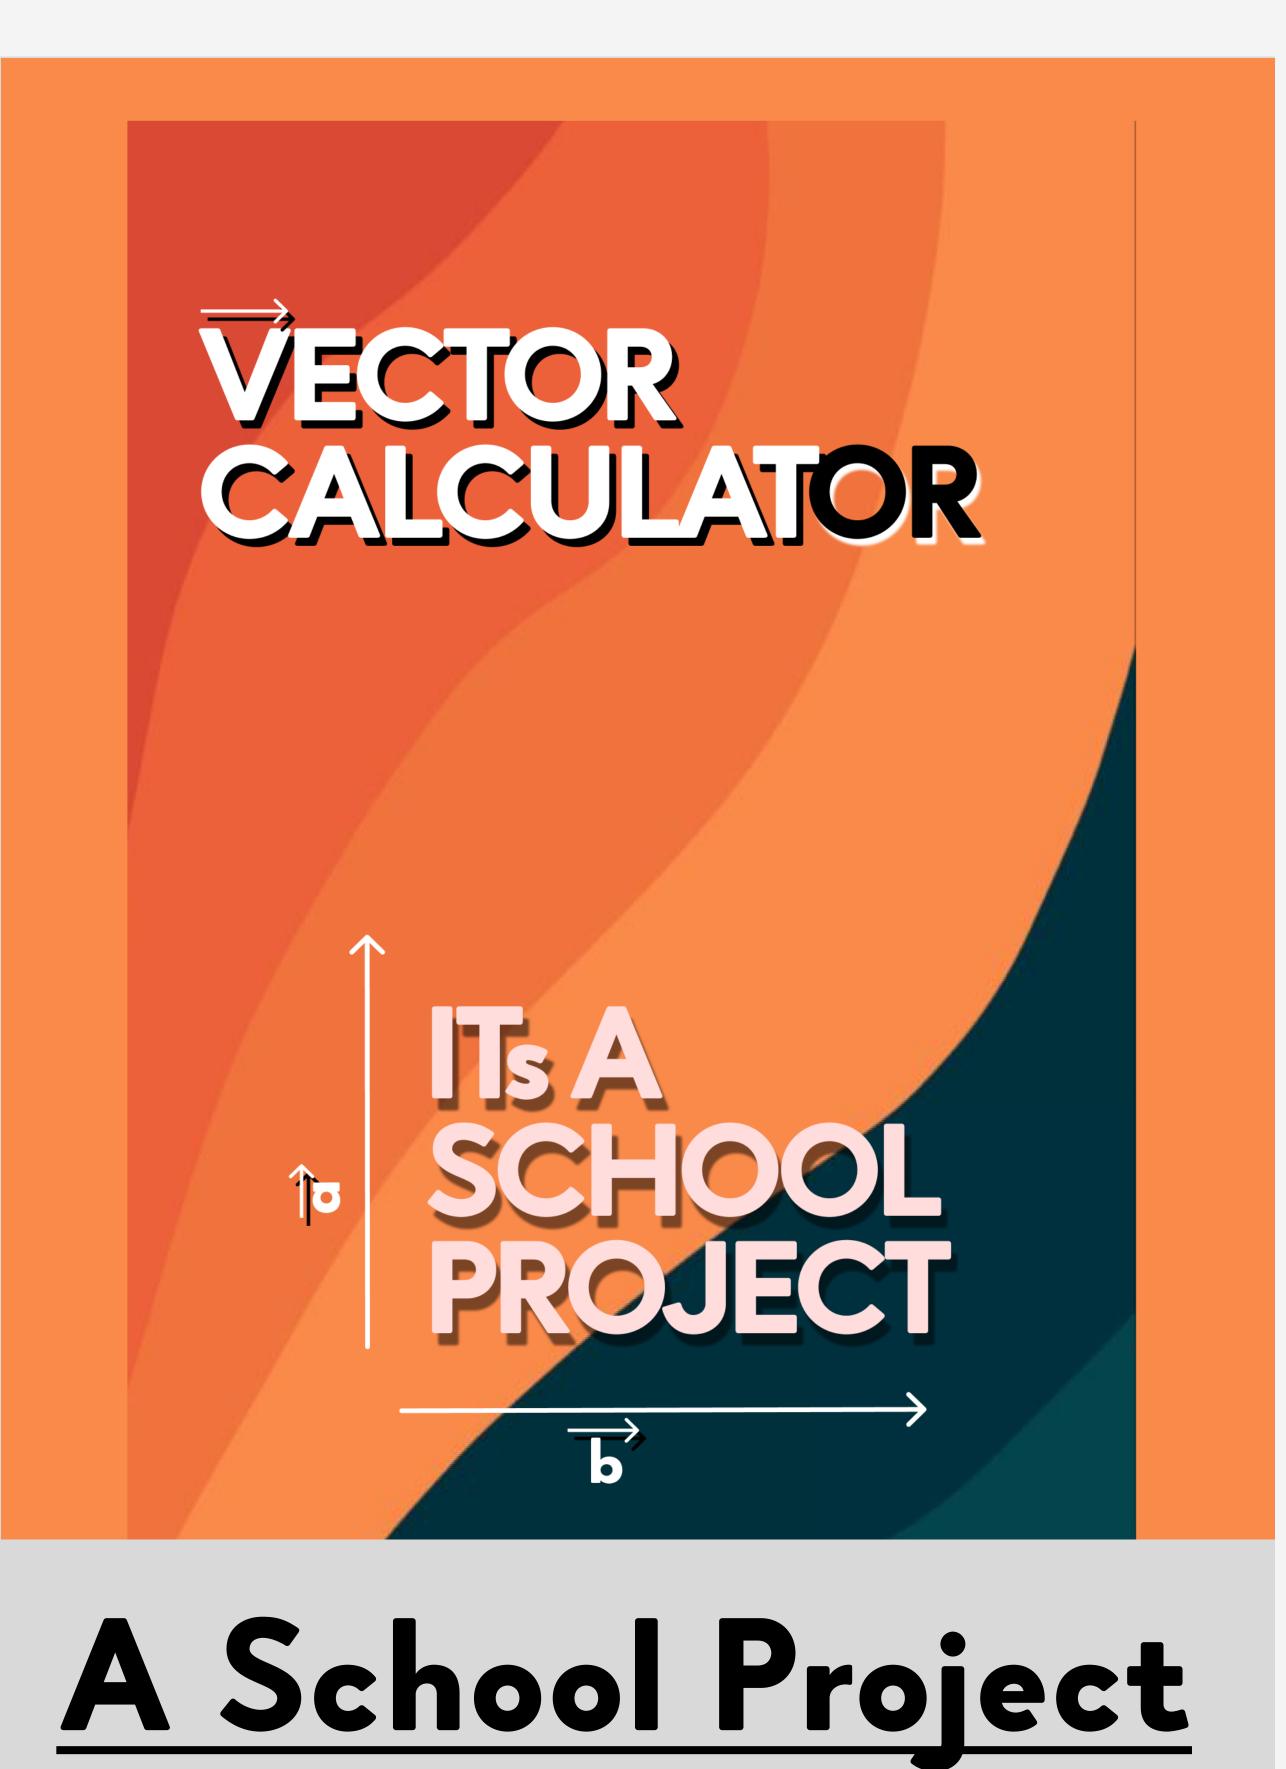

#### 2022-2023

Started Learning Web Dvelopment

#### Front-End Completed till November with projects

Notes App

this all projects are written in core HTML, CSS, JS showing core knowledge of a web application. this projects are two year old and had not get any update because I am a student having lack of time thus may feel outdated. To examine my frontend skills you can check mine portfolio website (the most recent project) or RK Coaching classes

#### 2023-2024

Started Learning Web Dvelopment

## Front-End Completed till November with projects

Chat Application

Coaching website

After completion of backend development I worked on that all projects created A realtime chat application. took part in a hackathon and created a data-intensive application for agricultural purpose, A the special one 'student management system' for a coaching this all I learnt and created in 2023. this projects having everything of development like- data-structuring in data base, real-time, APIs, NodeJS servers, VPS hosting or any another complex topics.
